The Mystery Academy offers a spiritual path to intimately know the deeper parts of you, to feel your authentic and intuitive self, embracing your multi-dimensional being, flowing with the natural forces of the universe.

Combining Quantum Physics & Spirituality, collapsing the illusions of time & space, opening to the holographic field, parallel dimensions,& realities, opening a clear pathway to kick-start your own evolutionary potential through the wisdom of the ancients, channeled teachings, exercises, and disciplines for the body and mind, so spirit can do its work.

Our aim is to bring you back home to the essence of your inner being, reuniting you with the person you were born to be and the life you were meant to live as a divine spark of light.

The First step is "To Know Thy Self" (inscribed - Temple of Delphi)

"Man know thyself; thou shalt know the Universe & God" - Pythagoras

You know the real you is so much more, waiting to get out and be less afraid of being hurt, less worried about judgements of others, less afraid of taking on the world, desperate to laugh and dance again, wishing to trust your intuition, your innate gifts, your body's needs and your heart's desire.

The Second step is "To open to the unseen world"

"Everything you see has its roots in the unseen world. The forms may change, yet the essence remains the same" - Rumi

When we learn to go beyond our five senses we begin to follow our sixth sense & discover the beauty of the unseen world & the mystical kingdoms & realms that are all serving the evolution of the universe. Seeing the connection & way to the ultimate order of things.

The Third step is "To follow your heart & walk your path with purpose"

"Follow Your Bliss! & the universe will open doors" - Joseph Campbell

We are living in a gateway, the old paradigms are falling away and a new world is being born. Becoming part of the new world movement by aligning to the unified field with a view to interconnection and oneness we can accelerate the Spiritual Awakening of Humanity.
